Part B for May 46

SUBJECT

Distribution of Water Supply Grant to the several Municipalities during 1945-46

No 2 12168 of 3 5-46

Files relating to the distribution of water supply grant to the several Municipalities in the State during the year 1945-46

Proposals for each District have been worked up separately and all the files are put up together for orders, as ordered by the Revenue Secretary on file bearing DNo 4028

In this connection, it is submitted that there is a provision of Rs 75,000 under 'water supply grant' in the State Budget for 45-46

3 So far a sum of Rs 9,370/- has been distributed, as noted in the margin, leaving a balance of Rs 65,630

Municipality	Amount granted Rs
Kaptur	3,870
Mlakalmuru	1,500
Kolar	4,000
	9,370

Sd
28/1/45

4 Proposals received from each District for the grants for water supply improvements in the several Municipalities are put up below separately for each District as ordered in Memo

1 Memo a provision of

Rs 75000/- under water supply grants ~~for~~ in the current years' ~~B~~ budget

6 According to the proposals made in the accompanying ~~file~~, the total amount of grants to be made would be as follows:-

1) Alwaye ~~Dist~~ — Rs 2000/-
2) Trivandrum Dist — Rs 5726/-
3) Portuguese Dist — Rs 2000/-
4) Mandya " — Rs 8432/-
5) Kolar " — Rs 13,184
6) Shimoga " — Rs 6418/-
7) Chitaldrug " — Rs 6493
8) Mysore " — Rs 4750
9) Kanara " — 5000

Total Rs 53,403/-

Amount already granted 9370

62773

Balance available out of the grants 12,227

Detailed and definite proposals will be called for from the ~~two~~ Divisions in regard to the ~~executi~~ schemes of water supply costing Rs 10000/- & more

While sanctioning the above grants, it is necessary to direct the Executive

GEN. & REV SECTT

15) submitted -
the provision of Rs 75,000/- made in the state budget for 45-46, for the "Improvement of water supply in Towns"

under "30 grants for public improvements has been fully distributed among the several Town and minor Municipalities in the State. In Town like Tezpur, Dibrugarh, Bongaigaon and Barpeta, water supply improvement works have been ordered to be taken up on hand pending sanction of the estimate for each work in order to tide over the water difficulty caused on account of the failure of rains. To meet the existing commitments and the requirements of grants that may be received during the remaining months of the year, a further sum of Rs one lakh may be required.

16/ In this connection, it is submitted that so far a sum of ~~Rs~~ about one lakh and seventy thousands (Rs 1,70,000) has been

4055/L Water supply grants

distributed out of the provision of Rs 5 lakhs made in the current year's state budget under "3 Improvement works in Town and Municipalities" As a balance of Rs 3,30,000 is available under this head, a sum of Rs one lakh may perhaps be ~~re-appro~~ re-appropriated out of this saving to meet the extra expenditure under water improvement works in towns

A.

17/ 'A' may be done in consultation with the Financial secretary

18/ Submitted for orders

Sd/-
4/4/46

19/ P.L note as for the possible ~~re~~ specific cases relating to water supply improvement schemes which are under consideration should require to be financed by the Govt - so far as those concerned - during the current year Also those sanctioned after the commencement of the year to the extent of Rs 75,000 was noted vide W.O. dated 4/4/46

20/ After the issue of go distributing the water supply grant to certain villages, further grants have been made to certain villages as noted hereunder -

Village	Estimated cost Rs	Govt grant given Rs
Thiruvannamalai water supply I stage scheme	24,380	12,190
2 Gorantla (sinking a well	1,000	1,000
3 Kolar (urgent improvement wells)	1,650	1,650
~~[illegible]~~	~~[illegible]~~	~~[illegible]~~
5 Nanjangud water works A & charges	A sum A sum of Rs 16,550/ has to be given as govt share of the cost the go is [illegible] not yet issued	

7/ As regards the schemes that have been already issued to be taken up for execution pending sanction of the estimates, govt grants are prayed for to the extent noted below in each case

Village	cost of the estimate	grant
1. Birur water supply	12,040	8,0

		cost of the estimate Rs		Amount proposed for Rs
2	Bowringpet	20,400		10,200 (A sum of Rs 6,000 has already been given - vide estimate dated [illegible])
3	Jagalur	1,04,000		69,000 (2/3 of the cost)
4	Chitaldrug	1,64,000		The cost is proposed to be debited to the Kathral project estimate

22) The following water supply schemes are under consideration:-

1) Chikmagalur water supply scheme — The file is with the Chief Engineer for [illegible]

2) Salegrama " " — No Estimate is under revision

3) Tumkur water " " — Cost of the estimate is Rs 1,62,660/- Half of it is proposed for the Govt grant

4 Hassan " — Further information is awaited

5 Hirekalmuru " " — do do

6 Sira " " — do do

22) In view of the above information, the whole case is summed up as follows,—

1) out of the provision of Rs 75,000 made in the state budget, a sum of Rs 62,773/- has been distributed in the constituted so

2) After the issue of the said so, a sum of Rs 14,840 has further been sanctioned as noted under para 20 supra

Thus a total sum of Rs 77,613 has been incurred so far as against the provision of Rs 75,000 made in the state budget

3) Apart from a sum of Rs 16,550/- to be given towards the A & S charges of the Nanjangud water works (-so not yet issued), a sum of Rs 81,227/- has to be provided for immediately in respect of the works already taken up for execution ~~towards the urgency in the matter~~ to tide over the water difficulty at the places noted under para 21 supra. Moreover, many proposals received from certain cities praying for the grants ranging from Rs 1,000 to Rs 2,000 are also under consideration there are about 5 or 6 cases

4055/L Water supply grant for 45-46.

4) Of the works under consideration, no estimate can be made at this stage as to the actual cost for which grant required

24) In the above circumstances, it is perhaps desirable to re-appropriate a sum of Rs 1,50,000 to meet the extra expenditure under water supply grant out of the savings of Rs 3,30,000 under T.D grant made in the statement budget for 45-46

25 Submitted for orders with reference to para 19 supra

Ma 6/4/46 26) In order to meet the demands as above from the several Mfcs for water supply grant during the current year an addl allotment of Rs one lakh at least would be required, having regard to the fact that there are only three months more for the M year to close & that all the works connected be taken up: 27) Instead of approaching the

Legislature for an addl grant
a sum of one lakh of rupees may be
reappropriated out of the unallotted
balances of Rs 3,30000 available
under the grant for improvement of
Towns during the current
year. State Budget for water supply

Secretary to Government of Mysore, Revenue Department,
Bangalore

Subject, Sanction of Town Improvement and water supply grants during 1945-46

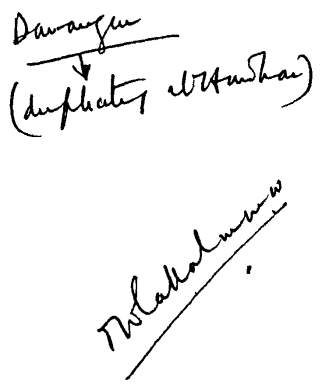
Sir,

With reference to your letter No L 3552-60 dated 7-11-45 on the above subject, I have the honour to forward herewith two statements in respect of grants required out of town Improvement and water supply grants during the year 1945-46 The financial condition of all the Municipalities in the District is very poor The income of these Municipalities is hardly sufficient to meet their ordinary requirements I request that the grants applied for as per appended statements may kindly be sanctioned during the year 1945-46

I have the honour to be,
Sir,
Your most obedient Servant,

Deputy Commissioner,
Chitaldrug District

RECEIPT SECTION
10 DEC 1945
C.M F 1/



Statement showing the list of water supply schemes proposed to be taken up by the several Municipalities in this District during the current year and for which Govt grants are required.

' Water Supply '

Sl. No.	Municipality	Nature of work.	Amount of estimate	Municipal contribution	Govt. grant required	Remarks.
1.	Tumkur	1.Improvement of water supply i.e. for putting up public taps and laying submains to the new extension.	6000	3000	3000	The Council considers as essential as water supply has to be provided to the growing town.
2.	Sira	Sinking of wells in certain extensions of the town.	6252	3126	3126	Scarcity of water is very keenly felt in the town. This proposal may kindly be sanctioned
3.	Turuvekere	Bore well to be further deepened.	1000	500	500	The bore well has gone upto 100 ft but the supply is not much Further deepening of 50 feet is proved to be necessary hence a grant ~~here~~ is now prayed for.
		Second bore well	3000	1500/-	1500/-	If the first well fails to give proper supply of water, another well will have to be sunk The Council prays that the grant for this proposal may kindly be sanctioned since it would save the transit charges of the machinery, if it has to be taken up at some other time.

From

K Thipperudriah, Esq B A ,
Deputy Commissioner,
Mandya District

To

J B Mallaradhya, Esq , M A ,
Secretary to Govt of Mysore,
Revenue Department, Bangalore

Sir,

Town Improvement and Water supply grants for the year 1945-46

With reference to your letter No L 3552-60 dated 7th November 1945, on the above subject, I have the honour to forward herewith 2 statements, showing the grants required, by the several municipalities in this District during 45-46 and to state as follows -

I Town Improvement Grants, Mandya Municipality

The Municipal Council propose to take up the construction of the underground Drainage in the old Town and in the Extensions, along with the improvement of waterx supply to the Town at an estimate cost of Rs 6,00,000/- As the financial position of the Municipality is no favourable to enable them to meet this heavy expenditure, the Council have requested for a liberal grant of Rs 4,00,000/- and a loan of Rs 2,00,000/- for taking up the work While the need for underground drainage is very urgent, the grants applied for by the Municipal Council appear to be very heavy The Municipal Council have to meet a moiety of the cost, the works being taken up in stages A grant of Rs 1,00,000/- may perhaps be sanctioned during the current year The President, Municipal Council, Mandya, will be instructed to submit separate proposals for the loan asked for, with details regarding the manner in which the same is proposed to be repaid

Besides this, the Municipal Council have proposed to acquire certain houses and lands for the removal of slums, formation of conservancy lanes and roads etc , at a cost of Rs 30,000/- and to form an extension for the poor people of the town at a cost of about Rs 20,000/- They have prayed for an outright grant of Rs 50,000/- for this purpose The slum clearance in the Town necessitates, the provision of sites to the families displaced The Municipal Council have in fairness, to meet at least, half the cost of these improvement I recommend therefore that a grant of Rs 25,000/- may kindly be sanctioned for these improvements

Seringapatam A sum of Rs 2,000/- towards the ridying up of th Fort area and Rs 500/- towards the maintenance of the Gang for removal of rank vegetation, may kindly be sanctioned to this Municipality as was done during the previous year

Malavalli The Municipal Council have proposed to take up the slum clearance work in Malavelly Town at a cost of Rs 10,000/- There is at present a lot of congestion in the Town, with many insanitary pits in those areas and this has been partly responsible for the frequent outbreaks of Cholera and Plague in the Town As the Municipa Council are prepared to meet a moiety of the cost, a grant of Rs 5000 may kindly be sanctioned to the Municipality

Nagamangala The Municipal Council intend taking up, the 2nd stage of the drainage work at a cost of Rs 12,230/-

3500
1132
500
3,300

8432

Nagamangala The Municipal Council intend taking up, the 2nd stage of the Drainage work at a cost of Rs.12,230/- as estimated by the Sanitary Engineer As the financial position of the Municipality is not at all satisfactory, they can hardly set apart any amount, towards such improvement schemes, in spite of the obsolute need for the same. It is only with the help of the Government that the Municipal Council can take up this work. An outright grant of Rs.12,230/- may perhaps be sanctioned to the Municipality in view of the importance of the work.

The Municipal Council have also proposed to take up the construction of the Municipal Office building at a cost of Rs 5,000/- and to acquire certain houses for the formation of an approach road to the Jumma Mosque at a cost of Rs.500/- As the Municipal Council are willing to meet a moiety of the cost of the construction of the Municipal Office Building a grant of Rs.2,500/- towards this work and Rs.500/- for the formation of an approach road, may kindly be sanctioned.

Melkote The Municipal Council propose to take up the construction of quarters to the Municipal Scavengers at a cost of Rs.1,000/- An outright grant of Rs 1,000/- may kindly be sanctioned for this purpose

Frenchrocks The Municipal Council have proposed to take up the slum clearance work in the Voddar's and Adikarnataka's colonies at an estimated cost of Rs 5,000/- and to improve the existing beef and Mutton Stalls at a cost of Rs.1,000/- Since the Council have pleaded their inability to set apart any amount from out of the Municipal Funds for this purpose, on the ground that the expenditure of the Municipality has increased abnormally I recommend that outright grants of Rs.5,000/- and 1,000/- respectively may kindly be sanctioned.

Belakavadi The Municipal Council have proposed, to form an extension in the Town which has a population of about 4,500 at a cost of Rs.6,000/- As the Municipal Council are agreeable to meet half the estimated cost, of the work, a grant of Rs.3,000/- may kindly be sanctioned.

Krishnarajpet The Municipal Council have proposed to take up the Drainage Scheme in Krishnarajpet Town They have also proposed to take up the construction of a Bonded Ware house, Mutton stalls and the formation of a Shandy maidan, at Hosaholalu, at an estimated cost of Rs.9,000/- Since the council are agreeable to meet a moiety of the estimated cost of a grant of Rs.4,500/- in all may kindly be sanctioned.

Maddur The Municipal Council intend taking up the 1st Stage of the Drainage Scheme in Shivapura at an estimated cost of Rs 6,233/- As the council are agreeable to meet half the estimated cost or grant of Rs.3,117/- may kindly be sanctioned.

The Municipal Council have also prayed for outright grants of Rs.1,000/- for the construction of Sweeper's Quarters and Rs.1,500/- for the acquisition of lands for shifting the A.K Colony The grants asked for may kindly be sanctioned

As regards the Water-supply grants, I recommend, that the grant prayed for by the Nagamangala, French Roacks and Krishnarajpet Municipalities may kindly be sanctioned.

I have the honour to be
Sir,
Your most obedient servant,

Letter No D3 C 1512/45-46 dated 29-11-1945 from the Deputy Commissioner, Mysore District, to the Secretary to Government of Mysore, Revenue Department, Bangalore

****

SUBJECT.- DRAINAGE, WATER-SUPPLY AND TOWN IMPROVEMENT GRANTS FOR THE YEAR 1945-46

Adverting to your letter No L 3552-60 dated the 7th November 1945 and subsequent D O reminder letter No L 4313-21 dated the 27th November 1945, on the above subject, I have the honour to forward herewith separate statements showing the amounts of grants required by the several Town and minor Municipalities in Mysore District for the year 1945-46 and to state as follows -

WATER SUPPLY GRANTS - (Town Municipalities)

The question of providing water-supply to Chamarajanagar town had been pursued about 3 years ago at an estimated cost of Rs 1,34,000/- But, owing to abnormal conditions due to War, the work could not be undertaken Recently, at the time of the visit of the Dewan, some of the Municipal Councillors represented to him their dire necessity for the water-supply Accordingly, a separate reference has already been made in this behalf in this office letter No D3 C 810/39-40 dated the 15-11-45 Hence a sum of Rs 67,000/- representing one half of the estimated cost may kindly be sanctioned

The residents of Gundlupet have been subjected to much hardship owing to the scarcity of good drinking water from a very long time This scheme which should have had its due priority sometime before has lost many chances of getting a suitable grant The estimated cost of the scheme is about Rs 38,000/- A reference has already been made separately in this office letter No D3 C 3307/39-40 dated the 4th October 1945, urging for sanctioning a suitable grant As already requested, one half of the estimated cost, viz , Rs 19,000/- may kindly be sanctioned,

(Minor Municipalities.)

The question of providing water-supply to Saligrama has been pending since a long time But for the outbreak of War and high cost of labour coupled with paucity of materials, this work would have been completed by this time The estimated cost of the scheme is about Rs 89,400/-, and the Municipal Council are agreeable to share one-third portion of the estimated cost A separate reference has already been made in this office letter No D3 C 1654 of 1939-40 dated the 17th October '45, urging the necessity of providing water-supply to this place In view of this, a sum of Rs 59,600/-, representing 2/3 of the estimated cost may kindly be sanctioned

As the marginally-noted Municipalities are not in a position to undertake comprehensive schemes of water supply, the Presidents of these Municipal Councils have requested for grants with a view to sink some drinking-water wells just to meet the present-day necessities at these places Therefore, a sum of Rs 1,000/- to Mugur, Rs 2,000/- to Yelandur and Rs 2,500/- to Periapatna may kindlybe sanctioned

MUGUR
YELANDUR
PERIAPATNA

DRAINAGE GRANTS (Town Municipalities)

Of the comprehensive scheme of drainage sanctioned to the Chamarajanagar Town, Six stages have been completed and the estimate for completing the seventh stage is under prepa-

P T O

preparation However, the estimated cost of the VII stage Drainage work is placed at Rs 20,000/- As already stated in Govt order No L 5926-8/M1 158-38-40 dated the 5th January'40 one half of the estimated cost, viz , Rs 10,000/- may kindly be sanctioned

The Gundlupet Municipal Council have already undertaken to finance the execution of the drainage scheme Towards the first stage of the scheme, they have already contributed a sum of Rs 10,442/- The estimated cost of the scheme is about Rs 17,800/- Hence, a lumpsum grant of Rs 7,800/-may kindly be sanctioned

Owing to the bad financial condition of the Krishnarajanagar Town Municipal Council, the introduction of a drainage scheme to the place had to be deferred Even at present, their finances are not adequate to undertake works of public utility Hence the President, of the Municipal Council has requested for a grant of Rs 6,000/- for the construction of smaller drains in localities where they are badly needed As this Town is surrounded by paddy-growing areas, the health of the town is being affected through the incidence of Malaria Providing proper drains at least, in such places where mosquitoes are likely to breed, will not only be a preventive measure, but also a protection to the residents Hence, a grant of Rs 6,000/- may kindly be sanctioned

(Minor Municipalities)

The comprehensive scheme of drainage for Bannur at an estimated cost of Rs 93,760/- has been contemplated to be executed in smaller stages, involving an annual outlay which will be within the reach of the Municipal Council An estimate for about Rs 8,900/- has been received from the Sanitary Engineering Department for further execution of the work during the current year Therefore, a sum of Rs 4,450/- representing the Government share of the cost may kindly be sanctioned

The financial resources of the marginally-noted minor Municipalities being very limited, these are handicapped very much to undertake works of public utility and safety, involving considerable sums of money Hence, it is thought fit to provide these places with such amenities at least on a smaller scale keeping in view the necessities and urgency of the works concerned A sum of Rs 1,000/- to each of these Minor Municipalities may kindly be sanctioned for carrying out drainage works

TOWN IMPROVEMENT WORKS. (Town Municipalities.)

An aggregate grant of Rs 59,000/- is recommended to be sanctioned in respect of the marginally-noted town municipalities for carrying out several Town Improvement Works during the year 1945-46 The details of grants required and the names of works over which such grants are proposed to be spent are given in the statement appended herewith All these works in respect of each Municipality have been selected after careful consideration and their execution is an urgent necessity As all these works aim at improving the general appearance and sanitary conditions and also provide better Civic amenities to the residents of the concerned places the grants recommended may kindly be sanctioned

Nanjangud
Chamarajanagar
Gundlupet
Krishnarajanagar
H u n s u r

(Minor Municipalities.)

A total grant of Rs 43,690/- is recommended to be sanctioned to the several minor municipalities as detailed in the margin The statement appended herewith shows the details of grants required and the purpose for which they are meant to be utilised In some cases, the estimates could not be got scrutinised and sanctioned in time In some cases, the concerned municipal councils desire to take up works on a smaller scale with a view to meet their immediate local needs such as Road repairs, removal of congestion and slum clearance, etc The urgency as well as the necessity of these works have been pressed many a time and I am personally convinced of the several requirements as detailed in the statements Only such of the cases which are absolute necessities are recommended for sanction of suitable grants

In this connection, special mention is to be made about three items of works, viz , the construction of Town Halls at Talkad, Mirel and Agara-Mamballi In all these places, the Municipal Office is being run in rented buildings which serve as stumbling-blocks for effecting improvements in the upkeep of the offices Moreover, the public of the place have no common meeting place for holding public functions The Town Halls under contemplation are designed to serve the double purpose of locating the Municipal Offices as well as for holdingpublic functions Approved type-designs have already been received from the Government Architect and the estimated cost of the building is about Rs 6,000/- As the financial resources of these Municipal Councils do not permit of incurring the entire expenditure of Rs 6 000/-, the Government may kindly be moved to treat these as special cases and favour each of these Municipal Councils with a grant of Rs 3,000/-

The relative statements accompany this letter

Sir,

Re:- Proposals for the distribution of Town Improvement and Water Supply Grants for the year 1945-46 in respect of Municipalities in the - Kadur District.

With reference to your letter No.L.3552-60 dated the 7th November 1945 on the above subject, I have the honour to enclose two statements showing the grants required during the year 1945-46 for ~~Town~~ Town Improvement and water supply works in respect of some of the Municipalities in this District. Information in respect of the Municipalities of Chikmagalur, Birur and Narasimharajapura has not been received so far from the Presidents, though they were demi-officially reminded. Another set of statements showing the information in respect of these Municipalities will be sent very early.

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Kadur District.

b Sinking of two fresh wells in the Bazaar street — 2,000

c Repairs to (1) Nadigara-Kere, (2) Veeranmagu-Kere, (3) Agrahara-dakola — 3,000

Item 10 is the extract taken from the statement submitted.

Municipal Quota	Remarks.
25,000/-	This is an urgent work. If the existing water supply system is improved there will be ample supply of water.
02,500/- (Loans)	Proposals in this behalf have been sent to government in June 1945. The Municipal Council have prayed that half the cost of the estimate may be sanctioned as a loan to the Municipality re-payable in 30 annual instalments
2,000/-	Estimates for these works are not ready. The Municipal Council have prayed for outright grant in view of the limited resources of the Municipality
25,000/-	
5,000/-	New Pipe Lines have to be laid out in the extension behind the Town-Hall
1,000/-	The grant prayed for may be sanctioned
16,700/- (Loan)	The Municipality has pleaded inability to bear its quota of the cost of the work. Half of the cost of the estimate may therefore be sanctioned as a free grant and the other half as a loan repayable in 20 years
16,350/-	The scheme is under preparation in the Public Works Department.
	The entire cost may be borne by Government as the Municipal Council is not in a position to bear the moiety of the cost. If this is not possible, the municipality will be asked to take a loan for half the cost

5 00

Deputy Commissioner,
Nadur District

1000

1,500

All these works are reported to be urgent. Plans and estimates will be got prepared and the works got executed early. The grant prayed for may be sanctioned
